

Accident Incidents (accidents that occurred in the first half of FY2024)

(As of October 1, 2024)
*Excluding the Government Buildings Department and the
Port and Airport Department

Date of occurrence		Time	Accident category	Accident type	Damage status	Types of construction	Accident overview
2024/4/2	Tue	13:30:00	Occupational accident	Falls/slips	One injured	River/road maintenance construction	During waterway improvement work, an existing black pipe was being manually moved to the side when it recoiled, pushing back and causing a worker to fall into a floor excavation (H = 700).
2024/4/2	Tue	14:20:00	Public accident	Damage to buried objects, etc.	—	Road improvement construction	The work area was being graded with crushed stone to create a work yard. While a backhoe was excavating to replace muddy soil with high-quality soil, it came into contact with a temporary water pipe (ø75 mm) that had been temporarily relocated within the leased land, resulting in damage to the pipe.
2024/5/8	Wed	13:25:00	Occupational accident	Flying and falling	One injured	River/road maintenance construction	During weeding and branch-cutting work at the bottom of an embankment on both sides of a waterway, a flying stone struck and injured the right eye of a worker who was collecting weeds behind a mower operator (shoulder-mounted type).
2024/5/16	Thu	11:00:00	Occupational accident	Falls/slips	One injured	River/road maintenance construction	A 2 t dump truck was stopped, and the driver exited the vehicle to inspect the work area. However, the side brake was not engaged, causing the vehicle to start moving. Consequently, the truck, along with the driver, fell from the top of the embankment to the low-water bank.
